Sunday's Melee In Downtown Pacifica

(Continued From Page 1)

The demonstration, aimed at a city ordinance prohibiting "loitering" in shopping centers, began at noon yesterday with about 50 persons participating.

The controversial ordinance, first enacted last year as a means to clear the Linda Mar Shopping Center of "rowdy teen-agers," was used against workers in the Peace and Freedom Movement during last summer's peace campaign in the city.

The shopping center management used the ordinance to halt the distribution of Peace and Freedom Party pamphlets on the premises.

Leaders in the Peace and Freedom Movement have maintained the ordinance is unconstitutional, and the American Civil Liberties Union threatened to "test" the statute last year.

Clark Natwich, a South San Francisco schoolteacher prominent in last summer's peace campaign, was one of the 15 persons arrested Sunday. Natwich was charged with failing to disperse.

Others arrested on charges of failing to disperse, unlawful assembly and disturbing the peace were Michael S. Engler, John J. Engler, Jens Anderson, Larry J. Zane, Joseph O. Elwaz, Steven D. Langendorf, Calvin Greenawalt, James V. Day, Harry E. Mosley, Gary S. Said, Frank C. Childers, Donald C. Childers, Thomas A. Colombini and Daniel T. Ring.

Nine of those arrested were adults, police said, and they were to be arraigned Monday in North County Municipal Court. Six juveniles were turned over to authorities at Hillcrest.

Warrants have been issued for the arrest of at least three other persons involved in the demonstration, police said.—D.G.

Second Night Of Pacifica Violence

(Continued From Page 1)

Police extinguished the fire bomb at the sewer treatment plant.

Mayor Gust appeared at the shopping center early in the evening and offered to meet with a committee appointed by the protesters to hear their grievances. The mayor then appealed to them to go home.

When the demonstrators failed to leave, a police spokesman ordered them to disperse within five minutes or face arrest. When the bulk of the crowd remained in the shopping center, police went into action.

As part of a prearranged plan, some 30 police units which had been out of view, suddenly converged on the center.

While 100 officers confronted the main body of demonstrators, the molotov cocktail was hurled on the roof of the tavern. Police then formed a skirmish line and broke up the mob.

By 11:20 p.m. things were quiet and units were being withdrawn.

Most of those arrested last night were juveniles charged with curfew violation. Twelve youths were released to the custody of their parents, and two were booked at Hillcrest Hall.

Six adults were arrested on charges of failure to disperse.

One of those arrested, Steven D. Langendorf, was arrested in Sunday night's disturbance and released on \$625 bail after arraignment in North County Municipal Court on a charge of resisting arrest.

Langendorf was charged with failure to disperse last night, less than 12 hours after his release from jail, and bail has been set at \$315 on the new charge.

Other adults booked into County Jail that night were Dave A. Ratliff, Michael Williams, Michael A. Bosel, James W. Lafayette and Rickey Lynn Cowan.

Only Lafayette had posted bail at press time, authorities said.

Police estimated the crowd at the shopping center at 300 at the height of last night's disturbance.

Linda Mar Boulevard was barricaded by police shortly before they moved to clear the shopping center and traffic was disrupted for a brief period.

Picketing began at the shopping center about noon Sunday when a group of 50 young persons showed up to protest the "anti-loitering" ordinance and merchants' "ban on teenagers."

The ordinance was enacted last summer after merchants at the shopping center complained to the chamber of commerce and city council about "rowdy gangs of teen-agers using abusive language to the customers and blocking store entrances."

Later, during the height of the Peace and Freedom Movement activities in the city, the ordinance was used to clear the center of political activists distributing peace pamphlets.

One of those arrested in Sunday's disturbance, schoolteacher Clark Natwich, was a leader in last year's Peace and Freedom campaign and one of the persons ordered from the shopping center by merchants.

City Attorney John Sherman said Tuesday the disputed ordinance is "perfectly legal," and is authorized under the State Penal Code.

"The Penal Code gives cities the right to enact ordinances against the obstruction of public places and places open to the public," Sherman said.

"This ordinance is designed to exercise the same type of control over this area as other statutes allow over public places, such as streets and highways," the attorney said.

Man Held For Assault On Pair

Twenty-year-old Samuel Rudorfer was jailed by Daly City police last week, accused of using his auto to ram another car in which his estranged wife was a passenger, and attempting to attack her and a male companion with a brick.

Rudorfer, of 2072 East Park Way, Sacramento, was arrested on assault with a deadly weapon charges at 1:23 a.m., police said.

The authorities said Rudorfer's estranged 19-year-old wife, Virginia, of 438 Eighty-ninth Street, Daly City, was riding in a car driven by Joseph Dunn of 15 Peralta, San Francisco.

Rudorfer pursued the pair, police said, and smashed into the rear of the Dunn auto, then chased them for several blocks to 273 Buena Vista.

There, it is alleged, Rudorfer forced the Dunn car off the roadway into a brick retaining wall.

The suspect got out of his car, picked up a brick and assertedly attempted to smash the windshield of the Dunn car after the pair locked all the car doors to keep Rudorfer out, police reported.

Unable to get inside, Rudorfer fled.

When police arrived, they spotted Rudorfer still in the area and he was apprehended by patrolman Ray Mutter.

D.C. Man Is Arrested On Theft Charge

A Daly City man, 21-year-old Joseph Robertson, was arrested by police Monday on a grand theft complaint by Carl P. Kunstorff, 24, of 401 Darien Way, who alleged Robertson failed to deliver 10 kilos of marijuana, for which Kunstorff assertedly paid \$850.

According to a police spokesman, Kunstorff said he had arranged to place the money in the visor of a parked car at the Mayfair Market on Junipero Serra Boulevard.

He did deliver the money, Kunstorff said, and left the immediate vicinity, so that the money could be picked up.

Instead, Kunstorff alleged, a man he did not know went to the car, got in and drove off, with Kunstorff and another man, not identified, chasing on foot, but in vain.

Kunstorff then reported the incident as a theft to the Daly City police department four blocks away.

Kunstorff gave Robertson's name, but was unable to furnish an address, police said.

However, a policeman on patrol saw an unoccupied car "hung up" on a curb at San Pedro Road and Washington, and later spotted a man and woman arguing in the 7000 block of Mission Street.

This couple, the officer said, told him that they had been with the suspect for "a couple of hours" earlier and knew his address.

IN SHOOTING Fabbri Backs Officer

A South San Francisco police man who shot and killed a young burglary suspect last Tuesday "acted within the established policy of the police department," Chief John Fabbri said.

Fabbri said Officer George Baptista "carried out the department's general policy" in shooting 18-year-old David Goodwin as he fled from the scene of a suspected burglary on Lamonte Avenue.

South San Francisco councilmen reaffirmed the police department's policy of using firearms to apprehend suspected felons "as recently as 1963," according to Fabbri.

The 1966-67 President's Crime Commission Report also recommended the use of firearms against suspected felons, the chief said.

Fabbri served on the crime commission, and assisted in preparation of the report.

The chief said he will recommend that the district attorney's office investigate circumstances of the Tuesday night shooting "just to keep the record straight," and said his department would have no objections to a coroner's inquest into the youth's death.

"There is no question at all about the manner in which Officer Baptista carried out his duty," Fabbri said.

"Had there been any question, he would have been suspended until the matter was investigated further," the chief said.

Pacifica Youth Hurt

A Pacifica youth was critically injured yesterday afternoon when a motorcycle he was riding went out of control and crashed into a sewer grate after striking a manhole cover.

James Ryan, 15, is reported in poor condition in the intensive care unit at Mary's Help Hospital, where he was taken for treatment of head injuries after the accident occurred at the intersection of Lerida and Redwood Way at 4 p.m. Monday.

S.S.F. Man Still Critical

Richard Ambrosio, 29, 600 Hillside Drive, South San Francisco, who suffered severe head injuries and extensive facial lacerations in an auto accident Friday at Sneath Lane and Huntington Avenue in San Bruno, remains in critical condition at Peninsula hospital.

Aides said he had been listed as being in "extremely critical" condition since his arrival. Today, medics said his condition was "slightly improved."

2 Juveniles Arrested In Daly City

Two Daly City juveniles were arrested on car theft and alcohol possession charges Wednesday after a high speed chase of several blocks by a Daly City patrolman.

The youths were 15 and 16 years of age.

Authorities said the car was reported to Patrolman John McHenry as stolen from 88 Riesel at 7:30 p.m. It was back in the owner's possession at 9:45 p.m.

McHenry reported that shortly after he was informed of the car theft from police dispatchers he saw a car that answered the description at Bellevue Avenue near Riesel.

He pursued with red light and siren, as the car with two youths in it continued up Whittier, then Frankfort Street.

McHenry radioed the dispatch that the suspect car was not responding to the red lights and siren.

The car then headed towards Oliver "in a southerly direction at a high rate of speed," McHenry reported.

Turning right on Oliver, the suspect car started to go into a slide and came to rest then, and the two youths were taken into custody.

Youths Hurt In Daly City

Two youngsters were injured yesterday when their mini-bike collided at a Daly City intersection.

Martin Lemp, 14, of 173 Valley Street, and Alvin French, 11, of 588 Wyandotte Avenue, were delivering newspapers on the mini-bike, riding north on First Avenue when the accident occurred at 2:34 p.m., police said.

Driver of the car, eastbound on Valley, was Gary E. Beecher, 21, of 102 Westline, who said he did not see the bike as he entered the First Avenue-Valley Street intersection.

Lemp and French were taken to Mary's Help Hospital and were said to be in "satisfactory" condition.

Both had possible head injuries, according to hospital attendants.

Fire Sweeps Bruno Roof

Fire charred wall and roof shingles of the garage at the Ed Miller home at 608 Seventh Avenue in San Bruno Monday.

Cause is not yet determined, a San Bruno fire department spokesman said.

The fire apparently started at the base of the south side of the garage and spread up the wall onto the roof, firemen said.

The blaze was just getting started when a passing motorist, Barbara Atwood, spotted it and called firemen at 4:20 p.m.

No estimate of the loss value was available.

Firemen said the Millers are vacationing.

JUDY WELCH is shown with her Geisha-san doll.

S.S.F. Student Enjoying Her Visit In Japan

Judy Welch, daughter of Mr. and Mrs. Russell Welch of South San Francisco, is currently finishing a year of study in Japan. Miss Welch is justly proud of her "Geisha-san" the first doll she made in the Japanese doll-making class. In a recent letter home she reports:

"The doll is one that I made in my doll-making class — she's a geisha. I've made several dolls so far, both from silks and from Japanese folk paper.

This past weekend my art teacher and I took a trip into the country to a little town where folk pottery is made. It was such an interesting trip. The country-side itself was beautiful — lots of green fields, and rice farms to make pretty scenery. We took a tour of the small pottery factory and watched the whole process — from the special way they knead the clay (just like bread) to the glazing and baking. The clay and all the materials for the color and glaze come from that particular area and make the pottery unique. Afterwards my teacher and I designed two dishes of our own and we're waiting for them to be baked now. I always enjoy going into the country in Japan. I guess we "city dwellers" could never adjust to living like the farmers do — but sometimes I really envy their world.

"Next week my Japanese family and I are going north to a small resort town called Karuizawa. We're going north to beat the heat." Tokyo is quite warm and humid in the summer. We hope to do some hiking, bike riding, and fishing in Karuizawa. I only have 15 days before leaving and this will be a nice vacation and time forusto be together before I leave. It is going to be so sad to leave Japan — I don't even like to talk about it, however, there is a good chance that my "Japanese brother" will be visiting San Francisco in August, so it will not be a final good-bye! I am really excited at the prospect of having him visit our home. It will be so much fun to show him America after he has shown me Japan."

RADIO RELAY

FT. GORDON, Ga. — Private Jerrold E. McGovern, 19, son of Mr. and Mrs. Michael McGovern, Sr., 142 Cerro Drive, Daly City, completed a radio relay and carrier attendant course at the Army Southeastern Signal School, Ft. Gordon, Ga., June 28.

During the nine-week course, he was trained to operate and maintain different types of field telephone, telegraph and radio relay equipment.

Coast Man Booked On Pot Charge

Donald Joseph Sandillo, 22, of 137 Valencia Street, El Granada, was arrested Thursday for growing marijuana in his back yard.

Highway Patrolman Ben Donahue said Sandillo was observed pulling up nine marijuana plants and throwing them over his back yard fence in an apparent attempt to hide the evidence.

Sandillo was arrested, the officer reported, after the suspect and another man were seen running away from the area of a quarry at the end of Santa Maria Street. Donahue said it was known that some marijuana plants were growing there and he and sheriff's deputies were keeping an eye on the clandestine garden. An employee of the county road department, driving a truck to the quarry for a load of fill, saw Sandillo and the other man run from the scene as he approached, Donahue reported, jump in a car and speed away.

A few minutes later another road department employee saw the car in which the two suspects had driven away pull up at the Valencia Street address. Donahue was notified.

The officer said that as he approached the house the county employee saw the suspect run out the back door to a spot near the back fence where Sandillo pulled some plants out of the ground and threw them over the fence. Donahue reported that when he confronted Sandillo he asked him to retrieve the plants and the suspect complied, coming back with nine uprooted marijuana specimens.

Sandillo, an electronics mechanic at Hunter's Point Naval Shipyard, was booked at county jail for cultivation of marijuana. The other man was not held, Donahue said, because it was apparent that he knew nothing about Sandillo's surreptitious farming activities until they were surprised at the quarry.

CALLING ALL HOMEMAKERS By DONALD C. WAITE

YOU CAN MATCH IN ADDITION TO MIXING

While mixing of furniture styles and finishes is still a strong trend, the matching of fabrics, colors, and patterns is very effective and popular at the same time. Here are a few examples: Ordinarily, you would never think of

using the same color on both your sofa and living room carpet; yet, one of the most beautiful rooms we have seen had a dark solid blue sofa with the identical color used on the rug in that room. Of course, in such a case, very strong accents of other colors such as yellows and greens should be used.

In the bedroom you may use the same fabric very effectively on the bedspreads and boudoir chair, provided you use completely different colors elsewhere.

It can also be a good idea to use the same fabric on both drapes and throw cushions to create a co-ordinated look.

Some beautiful kitchens have been created by using the same vinyl tiles on both the floor and walls. Where wallpaper is used in the kitchen, this same paper will make a stunning lining for your kitchen cabinets.

So now you have heard the other side of the "mix or match" story. Whichever you like best, a visit to our store will delight you.

Westborough Road Task Is Delayed

County Engineer Don S. Wilson told the Board of Supervisors Wednesday that he had "no choice" but to hold up the Westborough Expressway project until next spring.

Difficulties in co-ordinating planning with the city of South San Francisco have delayed the start of the project to the point that it would be best to wait now until after the winter rains, Wilson said.

South San Francisco officials notified the County Board last week that they need 30 to 60 days more to study the county's plans for the million dollar project. The city is insisting on a pedestrian overpass to be added to the county's plans and is also asking that a stretch of the thoroughfare between Junipero Serra and Skyline Boulevard be included in the contract. The plans for that part of the project, originally due in June, will not be ready until next month.

Supervisor Robert St. Clair urged that the county continue to work with the city to get the project started.

Chairman James V. Fitzgerald stressed the importance of the project to provide better flood control facilities and to serve the new Skyline campus of the College of San Mateo.

The two Supervisors agreed to arrange a meeting with South San Francisco officials as soon as possible to attempt to keep the planning moving.

THE POST

-3

N. County Race Forum

A group of citizens from South San Francisco and San Bruno met recently at the Aldersgate Methodist Church to discuss the broad spectrum of community needs and explore the creation of a human relations organization.

It was agreed that such an organization could function in various capacities — as a public forum, an implementer of programs sponsored by other community groups, as a vehicle for identifying specific problems of minority groups and community-wide human relations, and acting as a task force in dealing with such problems.

Since neither South San Francisco nor San Bruno has a broad human relations organization, it

was believed desirable for both communities to be represented in such a mutual venture.

The name unofficially adopted for current identification of the group is "North County Social Action Council." Several working committees were formed to survey issues under the various headings of "Education," "Housing," "Jobs," and "Peace." Committee conveners are Hale Porter, Mrs. Mary Calmenson, Ralph Galloway, Al Waters, Mrs. Dorothy Dombroski. General convener of the organization is Gilbert Vieira, with Mary Calmenson serving as secretary.

The next general meeting will be announced for sometime late in August and will be held at the West Orange Library in South San Francisco.

The second club will be conducted at 428 Glasgow, Pacifica, by Mrs. Betty McDaniels, who will also teach the club. Boys and girls in these neighborhoods are invited to attend.

2 Westmoor Students Overseas

Charles Frieberg is spending the summer in Norway and Elaine Chiosso in Italy under the "Experiment in International Living."

The two youngsters are Westmoor students in Daly City and will be turning in late August from their overseas journeys. They will be available to speak before organizations in the community.

Charles is staying with the Asger Brunborg family in Oppdal, Norway, north of Trondheim.

Brunborg works in a sausage factory and the mother delivers a morning newspaper daily.

A son, who likes folk music and dancing, attends a junior college, while one 19 year old twin daughter is in nurse's training, and the other works in a restaurant.

Charles writes that he sometimes goes up into the mountains to help with the stock, and is soon to take a week's trip through Norway with other visiting students.

Elaine is living with the Raposello family in Chieti, Italy, a city of 50,000 population, a few miles from the Adriatic Sea.

Raposello owns a grocery store.

Elaine sometimes visits with other Experiment students from Oakland and San Francisco who

Brunans Nix Toy War Guns

Youngsters and adults in San Bruno made it clear in voting last week that they approved of the sale of toy cowboy guns but disapproved of selling military toy guns.

Rudy Solomon, owner of Todd's Toys, 591 San Mateo Avenue, San Bruno, said that the vote which has been going on for a week at the store was completed today.

Results showed that 336 voted "no" on military gun sales; 283 voted "yes" with 78 voting "don't care."

On the cowboy gun measure the vote was 416 "yes"; 218 "no" and 66 didn't care.

Larry Mobley, director of the Chamber, supervised the county of the votes.

Elaine is staying with families there.

Elaine is to go on a two week's trip to Rome, Florence, Verona and Venice with other Experimenters before returning home, via Paris.

Charles' address is 7400 Oppdal, Norway. Elaine's is via Aranzoze, 38, 66100 Chieti, Italy.

New Elder, Deacon At Broadmoor

Two new officers will be ordained and installed Sunday at the 10 a.m. worship service of the Broadmoor Presbyterian Church, 337-87th Street, Daly City.

Mrs. Durant Moseley will be ordained as a deacon to serve on the Board of Deacons. Mrs. Henry Suenderman is chairman of this board.

Crawford Aden will be ordained as an elder to serve on the session, the governing body of the congregation.

John Rued is the clerk and the Rev. Herbert Tweedie the moderator of the session. There are 12 members of the Board of Deacons and 15 members of the session. At a special congregational meeting following the worship service, there will be the election of two deacons to fill vacancies on the board.

The pastor will preach on the sermon subject, "Life's Basic Reaction: Belief or Unbelief." Special music is under the direction of the choir director, David Frankeberger and the organist, Carl Eagle. Infant care is provided and Sunday School meets during the worship hour. A friendly coffee time follows each worship service on Sundays.

Subject For Sermon Told

"God's People Go Into Action in a Sick World," fifth message in the sermon of the Christ of the Mountain of Matthew 5, 6, and 7, will be the theme by Pastor Walter Stram at 11 a.m. Sunday at the Peninsula Church of Christ (Christian), in San Bruno, Angus Avenue at Mason.

Study groups for all ages are held on Sundays at 9:45 a.m. and 6:30 p.m. and on Thursday at 7:30 p.m.

DENTAL HEALTH FACTS

Brush After Meals

Brushing after meals not only helps to remove food particles from which decay acids are formed, but also helps to remove the bacteria that are responsible for producing the acid. So get in the habit of brushing after every meal.

Brush Thoroughly

Even if you brush after every meal, success in preventing decay won't be achieved unless you brush thoroughly. Use a good toothbrush that is in good condition.

Please ask your dentist about proper brushing of teeth.

Dr. Campbell tries to limit his practice to the making of dental plates, partial plates, removable bridges and extractions for same; however, he recommends that you see your dentist at least twice a year in order to help prolong the use of your natural teeth, as dentures are not as efficient as healthy, natural teeth.

LOUANNE
HEATH'S
DATEBOOK

ADORACION TANCHOCO celebrated the end of her high school career with a long vacation trip to her home in the Philippine Islands for a visit with relatives she has not seen in nine years and to see for herself how much the islands have changed.

It will be a long and probably busy vacation, but Adoracion bubbles over with such limitless energy and enthusiasm it is doubtful that she will feel much strain — no matter how full the daily agendas appear.

Throughout her four years at Jefferson High school she maintained a schedule of activities and studies that would exhaust most ordinary mortals.

Beginning in her freshman year, with a performance of the Philippine Bamboo Dance during an assembly, Adoracion has been known as one of the "doers."

Before her first year was completed she had become a member of the California Scholarship Federation, the student government and a participant in the Model Senate. With the dawning of her sophomore year she reached full stride and became a member of the G.A.A., the sophomore dance committee, the sophomore sales committee, the art club and she was sophomore vice president, a member of the student government, she again qualified for the C.S.F. That year she appeared in the spring festival doing the Philippine Itik-Itik.

DURING HER JUNIOR and senior years she took part in the Rally Club, the Junior and Senior Prom committees, she was vice president of the Spanish club, first period representative, a member of the human relations committee, the executive board, the senior activities committee, she was named the first student representative to the South San Francisco Soroptimist Club, she continued her G.A.A. activities and took part in both the school play and the Jefferson-Westmoor talent show.

In the fall of her senior year Adoracion was elected president of the senior class and her classmates re-elected her to that post for the spring semester.

Since coming to the United States Adoracion has attended St. Boniface and Raphael Weill schools, Benjamin Franklin junior high and Colma intermediate school. She has had many teachers but her favorite was Jefferson's Michael Tagendreich.

Tagendreich, who teaches world history, won Adoracion's vote because of his fine sense of humor and the interesting way in which he presented the class material and held the attention of the class.

Adoracion has won many votes herself and in No-

Parents 'Don't Understand'

member the faculty and senior girls at Jefferson elected her the good citizen of the year. The Daughters of the American Revolution presented her with their Good Citizenship Award and she was one of eight local high school students to be honored by the Daly City-Colma Chamber of Commerce at the Outstanding Student Awards dinner.

Though she is a person who works well and communicates with all ages Adoracion, like almost all 1968 graduates, complained of a lack of understanding and resistance to change in the world.

"THE OLDER PEOPLE do not understand the teen-agers of today. Parents do not seem to want to accept change. They don't like mini-skirts, because they never wore them in their day. Lipstick and nylon stockings are worn by girls at a much younger age than when our mothers wore them. Parents don't seem to understand that teen-agers like to think for themselves. When we have problems, our parents should try to help us instead of turning away because they are so busy doing other things," she said.

"Some parents don't even try to understand. Instead, if you are in some kind of trouble, they just lecture, lecture, lecture. To me, the more you tell people not to do something the more they do it, just to irritate people."

"Of course, nowadays teen-agers get married so

young. Some live happily ever after and most of them do not. To me, they seem to be trying to prove that they can go on their own, to think by themselves and live a happy life inspite of their parents' advice," she observed.

Adoracion has some very firm ideas about the rebellion of America's youth and though she can understand many of the motives behind some conduct she dismisses the use of drugs as confined to those who want to get away from problems and life itself.

"AS TO DRAFT CARD burning, those who do it do not feel that they should give up their lives (being sent to Vietnam) when this country hasn't done anything to help them," she said.

"Rioting isn't an answer to anything really. It just shows what people can do, and will do, if they don't get what they want. Sometimes it is a way to fight back or get revenge."

"The hippies have formed their own separate community or society. They say, 'love, love, love' and they do. Compare their society with ours. They don't seem to have as many problems as our society faces, such as building highways, new schools, etc. In their society, there are no riots, fighting, no hatred. When they use drugs, they seem to just want to get away from everything that's real and go into a world of fantasy," Adoracion concluded.

Cadet Cook's Date Cake

Good morning, good cooks. Summer is here in Daly City — the fog billowing past my windows. And I must don a coat to mail a letter at the corner. Ah well, remember that it is over 100 degrees in the sweltering east and people there would love to have some of our natural air conditioning.

Whenever it's foggy and/or cold I enjoy baking, so I'd like to recommend to you, good cooks, this date cake, in case the weather affects you in the same way.

To be perfectly honest, I didn't bake this cake. I just passed the recipe on to my Cadet cook and she did the honors. The result of her mixing and fixing was most delicious.

CHOCOLATE TOPPED DATE CAKE

- 1 1/4 cups finely chopped dates
- 1 cup hot water
- 1/4 cup shortening
- 1 cup sugar
- 1 egg
- 1 teaspoon vanilla
- 1/2 teaspoon salt
- 2 cups flour
- 1 teaspoon soda
- 1/2 cup chopped nuts

Pour the one cup hot water over the 1 1/4 cup finely chopped dates and set aside to cool.

Cream the 1/4 cup shortening, add the one cup sugar gradually creaming well. Beat in the one egg and the one teaspoon vanilla.

Sift the 1/2 teaspoon salt, two cups flour and one teaspoon soda together. Add to the creamed mixture alternately with the date mixture, in four additions. Blend just until smooth. Lastly add the one-half cup chopped nuts. Pour into a greased and floured 13x9x2-inch pan. Sprinkle topping over cake and bake in 350-degree oven 25 to 30 minutes.

TOPPING

- 2 tablespoon sugar
- 1/2 cup chopped nuts

IF YOU DECIDE to make this cake you might want to make it late in the day so you can utilize the hot oven to bake dinner. This next recipe for a glazed meat loaf, served with baked potatoes and a tossed green vegetable salad would make a tasty meal.

GLAZED MEAT LOAF

- 1 lb. ground beef
- 1/2 lb. ground veal
- 1/2 lb. pork sausage
- 1 1/2 cups bread crumbs
- 2 beaten eggs
- 1/2 cup milk
- 1/4 teaspoon pepper
- 1/2 cup chopped onion
- 1 teaspoon salt
- 1/4 cup chopped celery

In a mixing bowl combine the one pound ground beef, one-half pound each ground veal and pork sausage, one and one-fourth cups crumbs, two beaten eggs one-half cup milk, one-fourth teaspoon pepper, one-half cup chopped onion, one teaspoon salt and one-fourth cup chopped celery. Mix all together (this is "handy" work) and shape into a loaf. Place in greased shallow baking pan. Bake in 350-degree oven for 45 minutes.

While the meat loaf is baking make the glaze in the following manner.

GLAZE

- 1/4 cup tomato catsup
- 2 tablespoons vinegar
- 1/2 cup brown sugar
- 2 tablespoons prepared mustard

Combine the one-fourth cup tomato catsup with the two teaspoons each vinegar and prepared mustard and the one-half cup brown sugar.

After the meat loaf has baked 45 minutes, remove from oven and spread with the glaze. Return to oven and bake 30 minutes longer, 1 1/2 hours in all.

In case you don't feel like meat, why not try this meatless casserole? It's easy to make and would be delicious with crusty French bread and a tossed salad. My friend Mrs. Ceil Collin sent it to me and I can always count on any recipe she sends.

NONIE'S FRIDAY LASAGNA

- 1 6-oz. pkg. (3 1/2 cups) wide noodles
- 1 1 1/2 oz. envelope Spaghetti Sauce Mix
- 1 6-oz. can (2 3/4 cup) tomato paste
- 1 1/2 cups large curd stream style cottage cheese
- 1 6-oz. can (2 3/4 cups) tomato paste
- 1 teaspoon salt
- 1 6-oz. package sliced Mozzarella cheese
- 1/4 cup grated Parmesan cheese

Prepare the noodles as directed on the package. Mix the spaghetti sauce as directed on the envelope using the six-ounce can of tomato paste. Combine the beaten egg with the 1 1/2 cups cottage cheese and the teaspoon salt. Mix well. In a greased 10x6 1/2-inch baking dish alternate layers of half each, noodles, sauce, cottage cheese, Mozzarella cheese and Parmesan cheese. Repeat this process.

Bake in moderate oven 350-degrees for 30 minutes. Let stand 15 minutes before serving. Serves 6.

MRS. ROSINA BANKS who lives at 45 Southdale Ave. in Daly City, recommends this cake highly. It uses a cake mix to which you add extra goodies.

CHERRY NUT GLAZED CAKE

- 1 pkg. yellow cake mix
- 3 oz. package softened cream cheese
- 1/2 cup finelychopped maraschino cherries
- 1/2 cup finely chopped nuts.

Prepare the cake mix as directed on the package, adding the three ounces softened cream cheese along with the eggs and water. Chop the one-half cup each maraschino cherries and nuts very fine (this is important in order for them to stay suspended in the cake as it bakes) and add to the prepared cake mix, folding in carefully. Pour into a well-greased 13x9-inch baking pan and bake in 350-degree oven for 40 to 45 minutes. Or until the cake springs back when touched lightly in center. Leave cake in pan and glaze immediately.

GLAZE

- 1 pkg. buttercream vanilla frosting mix
 - one-third cup maraschino cherry juice
 - 1/4 cup butter
- Combine the one package of frosting mix and one-third cup of cherry juice to a thin glaze. Add the one-fourth cup butter and heat until butter melts. Using a toothpick, make holes about 1/4 inch apart in the top crust of cake. Pour warm glaze over slowly, allowing it to seep into cake. Sprinkle with additional chopped nuts, cool.

Pacifica Jaycees Regain District 15 Flag at Meet

The Pacifica Jaycees regained the District 15 flag at the recent general membership meeting.

District 15 of the California Jaycees includes approximately 300 members in eleven local chapters extending down the Peninsula from San Francisco to Menlo-Atherton.

The District flag is a coveted award that is presented to the Jaycee local with the best overall performance record for the preceding three-month period. The winning chapter is entitled to display the flag for the following quarter.

The District 15 flag was presented to Pacifica Jaycee President John Drew by District Governor Bill Leslie. Only a two point difference separated the first place Pacifica local and the second place San Carlos chapter, who were the previous holder of the flag. Pacifica and San Carlos have been in top contention for district awards during the past year.

Pacifica also won second place of best president and best representation of a Jaycee local, San Carlos took first place by a narrow margin. According to Jaycee President John Drew, Pacifica will be in first place in all categories during the remaining fiscal year.

Sixty five boys from Troop 259 and 182 have returned from a 10 day troop camp held at Lake Pillsbury in Lake County.

The boys hiked from Upper Lake to Lake Pillsbury, earning their "50 mile Award."

The scouts learned to sail, swim, canoe and worked on their ranks; many of the boys also completed their "mile swim."

Frank Swanson is the leader of both troops and has long been active in scouting in this area, having received the "Order of Merit" Award from the San Mateo Council.

Swanson organized Troop 182 this year and troop 259 has been its "big brother" troop.

Mr. and Mrs. Peter Ruggeri celebrated their twenty-fifth wedding anniversary at the South San Francisco Rod and Gun Club, with a dinner and dance. The gala event was attended by 200 of their friends and relatives.

South City Club Woman Sets Merit Award Riordan High Guild Plans Two Affairs

A national citation for outstanding work in health and mental health was presented to the California Federation of Women's Clubs at the recent convention of the General Federation of Women's Clubs in Boston.

The program was a special project of Mrs. William Kasper of the South San Francisco Woman's Club which was supported by the state organization. Mrs. Kasper gave special emphasis to venereal disease, drug abuse, mental problems and the needs of the handicapped.

LUNCHEON SALAD

A good salad for lunch: chill a can of tuna (7 ounce size) and drain off the oil; turn out tuna in the center of a medium-size serving plate. Surround the tuna with shredded green cabbage that has been mixed with olive oil, white wine vinegar, salt, white pepper and a little prepared mustard. Top tuna and slaw with radish roses and ripe olives.

Mrs. Vern Box of Daly City, newly elected president of Riordan High School Mothers Guild has announced that the guild will have two major fund raising events almost as soon as school opens in September. The first event on the agenda will be their third annual rummage sale, to be held September 21 in the school gym.

The second event will be their fashion show "Up, Up and Away," October 19. Mrs. Robert Gilson and Mrs. William Essig have been appointed chairmen of the rummage sale and have requested donations of furniture, radios, clothing, shoe, millinery, jewelry and just about anything useable.

They have set up a rummage depot at the school, 175 Phelan Avenue, San Francisco, where items may be left.

Mrs. Gil Restani and Mrs. Stanley Kettell are chairmen of the fashion show, which will feature fashions from H. Leibes of Westlake.

Both events will aid the school development fund which assists in the expansion of academic facilities.

Pottery Is Featured At Gallery

There is a new show at Periwinkle Art Gallery, 2027 Palmetto, Pacifica, featuring pottery by Floyd Ashlock and watercolors by Carolyn Nance.

Floyd Ashlock, an engineer, resides at 1073 Fassler Avenue, with his wife Connie and two daughters. He studied ceramics with Larry Kemper and continues on his own to develop skill on the potter's wheel.

Ashlock makes his own glazes, combining them at times with different colored natural clays. This month the gallery is featuring functional pottery consisting of casseroles and unusual ashtrays.

Carolyn Norton Nance, watercolor artist from Sausalito, is exhibiting a vivid collection of marine paintings at Periwinkle. Mrs. Nance's watercolors have the appearance of acrylics with bold, strong colors. All of the scenes were painted on location in the Carmel-Monterey area, Mendocino and Marin counties. Mrs. Nance studied oil painting with Edith Truesdell, Design and sculpture with Harry Crotty at College of Marin and watercolor with Richard Yip.

Included in this group show are paintings by Robert Fol-Rosa, Leah Sillars, Janet Wilkins, Peter and Connie Hegedus. Paintings include seascapes, S.F. scenes and non-representational oils and acrylics. Present show runs through August 15.

Gallery hours are Tuesday, Thursday, 12 to 6 p.m., Saturday, 10 to 5:30 p.m., Sundays 12 to 4 p.m., Monday, Wednesday, Friday, closed. Call 359-5230 for further information.

They are Jo Perkins from Brazil, Betty Smith from India, Marie Cardwell from Lebanon and Jean Carrick from Japan. In addition the annual Summer Medical Offering will be taken. This is the "over and above"

giving by the women for the needs of the medical mission supported by the Presbyterian Church.

Mrs. Bernice Hamilton, UPW president, reports that very successful joint-circle meetings were held in July with studies given based on the Kerner Committee Report on Civil Disorder. A full program for the fall is being prepared beginning with an evening pot-luck dinner meeting at 6:30 p.m. on Tuesday, September 3. She invites all women interested in Christian witness, service and study in our community, nation and the world to attend these meetings.

Property Tax Dangerous Says Official

By DON GRIERSON

A property tax proposition to be included on the November ballot in California could create a \$2.5 billion budget deficit and require increasing the sales tax to 12 per cent, a State Chamber of Commerce official said last week.

Loran Vanderlip, State chamber representative to the legislature, said a proposal to reduce property taxes to a maximum of one per cent of assessed valuation would actually have the effect of shifting an "astronomical" portion of the tax burden from property taxpayers to other taxpayers.

Speaking to Peninsula busi-

nessmen at a South San Francisco chamber luncheon, Vanderlip said a 200 per cent sales tax increase, a 300 per cent increase in state income taxes or "some similar measure" would be required to offset the property tax loss if the initiative passes.

The state currently receives approximately \$4 billion annually from property taxes.

In a detailed report on pending tax legislation in both the Senate and Assembly, Vanderlip said there is some possibility a bill allowing counties and cities to use state funds for "local purposes" will pass during the next legislative session.

Cities and counties are now required to spend state funds for "state" purposes, such as highway improvements.

Vanderlip also reported on a resolution "endorsing the need for federal tax-sharing programs," and said there is a feeling in Sacramento that some federal relief through such programs "might be forthcoming when the Vietnam war ends."

He predicted a "concentrated attack" on a new state law which will establish a ceiling on taxes levied by school districts.

The state Chamber of Commerce is in favor of the new school tax legislation, which will

take effect in 1971, according to the tax expert.

Vanderlip said a new tax reform commission appointed by Governor Reagan is presently studying the matter of withholding income taxes, and "could conceivably come up with a proposal to institute withholding" next year.

He also reported on several bills proposed to finance the Bay Area Rapid Transit System and on Assemblyman Don Mulford's bill prohibiting the imposition of "commuter" taxes.

Vanderlip was introduced at the chamber meeting by program chairman Anthony Disanto.

(Post Drama Critic)

Movie Fan Strikes Back

Pauline Kael and Berkeley, from whence she came, burst into national prominence together. She, as a sharp-tongued film critic for New Republic and later McCall's magazines, and Berkeley for being anti-establishment and controversial.

As a real movie fan, she was always hard on the film industry. But outside of a small listenership during her days on KPFA Radio in Berkeley, her barbs went unnoticed. When she entered the sacred realm of New York film and drama critics and the world of complacent film-goers at large, her reviews became the touchstone of the intelligentsia, quoted, argued over, compiled into two books ("I Lost It at the Movies" and "Kiss Kiss, Bang Bang") and her fame has now put her on the lecture circuit.

Last week at Stanford Arts Festival Film Forum, Kael, held forth before a capacity audience at Curbly Auditorium, verbally tearing at such institutions as "Sound of Music," "The Graduate" and "2001-Space Odyssey." Her audience was predominately filmmakers and she earned their boos as well as their bravos.

BUT THEY LISTENED intently and held her a conversational captive long after the lecture ended and the lights were turned off. Here are some of her comments:

ART... "It is easier for Americans to see art in foreign films than in their own because it is what America isn't. Americans associate art with tea cups and refined living. All art is entertainment. Not all entertainment is art."

ENJOYMENT... "We don't know how to come to terms with what we enjoy. It is honest to label trash that which we enjoy (like 'Thomas Crown Affair') and part of the fun of movies is to see how many foolish fantasies we relate to."

BAD MOVIES... "My background is in philosophy but after viewing 4,000 films I can't discover attributes shared in common between a good or bad movie. The only basis of criticism is one we had in childhood, that's to see it, talk about it, argue its merits and shortcomings and grow as filmmakers. Not by expecting more, however, but expecting less."

TRASH... "Example of a good trashy American movie is 'The Scalp Hunters,' 'Bonnie and Clyde' and 'Charlie Bubbles' (only in part). I rate 'Petulia' as one of the most dislikeable, pretentious films of the year." (The audience agreed by applauding.)

DIRECTORS... "American directors are so insecure. They try to copy the best of European filmmakers. Richard Lester's 'Petulia' is a fake, like a lawyer making a criminal's case so strong that you forget the crime."

AUDIENCES... "People who get restless in a movie usually give it high marks for integrity."

LOVE STORIES... "Elvira Madigan is a lovely movie. It's unobjectionable, overly decorative and maybe too fragrant but a great film to hold hands at."

INNOCENCE... "American fall for European simpletons. The youth in 'Closely Watched Trains' was mentally deficient. It worked with 'Marty' but we see it again and again in 'Morgan' and 'The Graduate.' Social dropouts suddenly become endearing."

ORSON WELLES... "A boy 25 years old making his first movie has a better chance to making it than veterans like Welles. His type are labeled troublemakers because they fought to have things done their own way. For all his good work, he never had a single big success and it's held against him. Welles is the greatest director since D. W. Griffith."

WOMEN... "There are no decent acting roles for women anymore. When the men came back from World War II, they pushed women into their own image of playthings. Other than 'The Group' there have been no parts written to establish women as having political beliefs, or career ambitions. Now they're all fanny wigglers in picture like 'The Producer' and 'The President's Analyst' but have no real depth as people."

WESTERN... "The Sundowners" is one of the all-time best Westerns. Fred Zinneman knows how to open up a film and give it fluidity. His greatest triumphs were heralded as 'Man For All Seasons' and 'High Noon,' neither of which was as good as 'Sundowners.'"

PAULINE Kael begins reviewing for The New Yorker in the fall. Having been fired from both previous positions, she commented, "liberals write much more vicious mail than reactionaries. McCall's publishes fancy recipes but I felt the letters written against me were by people living on grits."

Three final barbs shot down "The Happening," ("a classic fiasco"), "Rosemary's Baby" (there is good trash and bad trash, this one is garbage) and "Ulysses" (good dirty book, dull clean movie).

You may not agree with what she says but she's a showman in the way she says it.

SAMUEL CHANDLER

(Daly City Librarian)

The 'Schizo' Books

SCHIZOS are books that find an audience among children as well as adults.

They drive bookmen crazy. Since they can't be pegged into a strict age level, they wreck the shelving arrangements in bookstores and they don't fit into the categories that librarians build around books.

Yet they are the backbone of the book business; TV and movies, too. They are the warp and woof of literature.

Consider Pilgrim's Progress, Gulliver's Travels, Robinson Crusoe, Huckleberry Finn, Old Yeller, A Connecticut Yankee in King Arthur's Court — Schizo books. Each of them was written for an adult audience and filled with social criticism, yet each has a fairy tale quality that appeals to children.

ONE RECENT SCHIZO book is Sheila Burnford's novel, "Incredible Journey." Children find in it something that fills their natural instinct towards beauty and imagination.

Basically it is a story of two dogs and a cat, who set out to cross three hundred rugged miles of Northern Ontario.

The English bull terrier is old and not in condition for a trip. The cat is of a breed — Siamese — noted for being unable to stand cold weather. Only the large Labrador retriever is suited to the conditions, but not even he is used to dealing with bears, porcupines, rushing rivers and angry humans.

Although classified as an adult

novel, 50 per cent of its sales are to or for children. When it was made into a motion picture, it was reclassified and called a family movie.

Presently, "Benji Boone" by Maurice Dolbier is proving to be one of the Schizos of 1968. Here is a warm, evocative view of the United States in 1839. It is an adventure story, portentous in places, joyous in others.

IT TELLS of a 15-year-old boy who leaves his home in Maine to look for his actor-father. When he gets to Philadelphia he finds that his father has vanished after being accused of murder. Almost in despair he joins a company of actors that are about to go on tour.

During the rest of the story he travels down the Erie Canal and the Great Lakes to the bustling village of Chicago. Then he goes to Springfield, St. Louis, and down the Mississippi River to New Orleans. On the way he passes through a host of adventures and meets many historical characters.

One of the first reviewers of "Benji Boone" wrote that it would appeal to "those interested in the early American theatre."

Soon the number of teen-agers who clamored for the book changed the reviews — Then it was called "a book that will hold the interest of the general reader."

Frank LaPierre is on leave in Japan. His column will be resumed upon his return.

New Trail System Opens in County

Local, county, state and federal officials gathered together recently in a tree-shaded location off Alpine Road in Portola Valley to dedicate what might be not only a local historic landmark but a national one as well as they cut a ribbon for the first eight-mile section of a hiking, riding and bicycling trail system which eventually is expected to encircle the nation.

Frank Sylvester, regional director of the Federal Bureau of Outdoor Recreation, noted that when areas throughout the nation were selected to submit proposals for local sections of the national system, San Mateo County was one of 14 regions chosen.

He pointed out that the Senate has already approved a \$500 million national trails bill to set up a nation-wide trails system.

In noting that San Mateo County was one of the pilot areas selected for an original part of the system, Sylvester declared, "We are happy in our partnership with San Mateo County."

Ernest Ribera, chairman of the San Mateo County Parks and Recreation Commission, pointing out that San Mateo County is one section of two western states subject to participation in the program, cited completion of the first segment as "an example of complete cooperation of the federal government, the state of California, the city and county of the San Francisco public utilities commission, the city of Belmont, the City of Menlo Park, Stanford University, the town of Portola Valley and the county of San Mateo."

"This is an example of what

can be accomplished when people will take the time and interest to collectively try to achieve something that is of common interest toward the benefit of the total community."

The recent dedication, Ribera explained, was for "a segment of a trail eight miles in length which ties into the trail running through Woodside and connecting to our other trails which run along Canada Road and through Huddart Park. The other section of the trail is four miles in length running from Belmont, Ralston Avenue along Lake Road to the San Francisco watershed properties and terminating at the state trail at the Pulgas Water Temple."

Ribera said the cost of the project was \$42,712, of which the federal government contributed half in money and the county half in labor.

James Fitzgerald, chairman of the board of supervisors, promised the county will "continue in pursuit" of a county-wide trails system, and noted, that in addition to a five-cent "open area tax," a bond issue will be presented to voters next April to finance the "\$140 million package."

George M. Dean, chairman of the state trails advisory committee, said with the National Trails bill, "We are on the brink of a whole new area."

He said the most critical need for outdoor trails is in metropolitan areas, and pointed out, "The emphasis is going to be on outdoor facilities within two hours traveling time of metropolitan centers."

Charles L. Vogel, chairman of the county trails committee, reviewed future plans, including an attempt to provide a space for motorcyclists.

Is P.O. Obsolete?

Every time the Post Office Department cuts back on service, it strengthens the case for those who argue that a corporation could handle the mails more efficiently than a cabinet level bureaucracy can.

In fact, the department admitted this when it pointed out that the elimination of window service on Saturdays will not affect contract postal stations.

A contract postal station, located in a drugstore or other place of business, can afford to give postal services during evening hours and on weekends. But the regular Post Office cannot afford to pay

those times.

So where does the postal patron get the best service? From business places, not at the Post Office.

It might be oversimplification to make a direct comparison between the speedy efficiency of long-distance telephone service and the frequent inefficiency of inter-city mail service. But the fact remains that private enterprise has managed to keep up with the demand for communication by wire while the government has failed to keep up with the need to pick up and deliver billions of letters and parcels.

'Black Power' Defined for Rotary

By WILL E. THOMAS

This country's black society seeks only the "instruments with which to extract our fair share of justice" within the context of the white society, the Rev. Booker Anderson told Daly City Rotarians.

Reverend Anderson, western region director of the Southern Christian Leadership Conference and pastor of the Easter Hills Methodist Church in Richmond, was speaking on the "negative and positive effects of black power."

And, "real danger" exists that both powers might exercise the negative aspects," he asserted. He cautioned that "our country had better come together as wise men... or perish as fools."

He declared, however, that "black power" cannot be portrayed without a dissertation on its relationship to "white power."

Reverend Anderson quoted extensively from a book, "Killers of the Dream," by Lillian Smith; particularly from a chapter entitled, "Two Men and a Bargain," in which the "driving force of white power" — as Reverend Anderson sees it — is outlined.

The book is described by its author as, "I think, a book about belief" having to do, she noted in preface, "with the white man... his dreams about himself... his children and the beliefs he taught them before they knew words."

Reverend Anderson urged uni-

ty of the Races to achieve the "American dream," which he said has been "murdered" in the eyes of the Negro.

The minister said he grew up with the belief "all men are created equal" and the dream "was set firmly in my mind, heart and blood-stream."

But, then he talked of a "head-on interruption" of that dream when confronted by white power.

The dream was "murdered," he said.

Black power, Reverend Anderson explained, asks only the "instruments with which to extract our fair share of justice within the context of white power."

The black man wants the ben-

efits of being an American, he declared.

He cited both negative and positive aspects of the "power" drives and in mentioning those forces attempting to obtain a "fair share" through violence, he contrasted the effort to a "bull running up against a freight train."

He saw a negative result: "There lies a once-great bull!"

Nonetheless, he said, "There is good in a man who insists upon being a man."

The minister urged man be judged individually and favorably at first meeting. "Give an 'A' the first time," instead of an automatic "F," he asserted.

And there should be a boldness toward unity, he advanced.

Government Oil Leases

QUESTION: I have been receiving literature concerning "Government oil and gas leases at what appears to be bargain prices. Can you give me information concerning these leases?"

ANSWER: There are vast tracts of state and federal lands in the west on which oil and gas leases may be acquired. The gas and oil industry has no interest in most of this acreage but the promoters do. They buy the rights at from 5 cents to 50 cents an acre and then sell the leases, usually in 40 acre tracts, to speculators throughout the country. People who have any interest in such offers should check thoroughly into what they are buying. In many cases the property is referred to by

names in the know as "goat pasture" and the chances of it ever being of value are very remote.

QUESTION: In spite of the fact that several deaths have been caused by the use of "frosted cocktail glasses," I see these glasses still advertised. Why hasn't the sale of such dangerous articles been stopped?

ANSWER: The Federal Trade Commission has sent letters to manufacturers of aerosol spray products requesting them to include on the label the following warning in bold and conspicuous type: WARNING — DO NOT INHALE. USE ONLY AS DIRECTED. DEATH MAY RESULT FROM INHALING THIS PRODUCT.

Boy Robbed By Youths

Two youths jumped an 18-year-old Millbrae youth in the San Bruno City Park last Tuesday and robbed him of \$5.

The victim was George Perez of 520 Anita Lane, police said. He told the authorities that he was walking through the park at 7:35 p.m. when one of the suspects called, "Hey, come here!"

They wanted to know if Perez wanted to buy some "grass." Getting a "no" in reply, they then asked if he had any money. Perez said he had none and turned around to walk away.

Perez related that the two jumped him from behind, throwing him down and one suspect held his shoulders to the ground while the other straddled his legs.

THE POST AUTO WORLD

U.S. motor vehicle production last week totaled 184,638 units, the Automobile Manufacturers Association reported today.

The week's output included 152,030 passenger cars and 32,608 trucks and buses. During the previous week 175,236 cars and 41,224 commercial vehicles were produced, the AMA said.

Cumulative output in 1968 through July 20 totaled 6,457,654 units, including 5,312,078 cars and 1,145,486 commercial vehicles. In the same period last year, 5,378,393 vehicles were produced — 4,391,978 passenger cars and 986,415 trucks and buses.

R. D. Loomis, Dodge regional sales manager, announced today another record 20 days of selling of Dodge cars and trucks by San Francisco region Dodge dealers.

Loomis said, "For the first 20 days of July, 1968, Dodge dealers were up 34.7 per cent in car sales over the same period last year, and up 15.6 per cent in truck sales over the same period."

Dodge reflected a combined increase of 30 per cent for the San Francisco region with a total of 1,591 units sold for the period this year, as opposed to 1,224 for the first 20 days of July, 1967.

The San Francisco region of the Sports Car Club of America offers to both local and statewide sports car buffs a full schedule of activities during August, beginning with the San Francisco Championship Regional Races on August 10 and 11, Golden Gate race circuit.

Cotati, California. August 17 will see a costume-type dinner dance social, open to prospective members, at the Sons of Italy Hall in San Francisco. The following day, August 18, will bring the El Palo Alto Concours D'Elegance, sponsored by the Lions Club of Palo Alto to benefit their various charities and the Mercedes-Benz Gull Wing Club. Last, but not least, is the Golden West Rally, a time and

distance affair to be run through California's mother lode country, scheduled for August 24.

Plymouth's National Trouble Shooting Contest will again be held in Indianapolis in the spring of 1969, Glenn E. White, general manager of Chrysler-Plymouth Division, announced recently.

Moved out of Detroit for the first time this year, the 1968 National Finals were conducted last June 19 on the track of the Indianapolis Motor Speedway, site of the world's most popular automobile race. A total of 198 top auto mechanics students representing 50 states participated.

No date has been set for the 1969 event, although there are indications that it will be the largest since the National Finals were started in 1962.

This year, some 100,000 auto-mechanics students in about 2,000 schools participated in inter-class competition to represent their schools as Trouble Shooters. Those who made the team competed in 76 regional contests in which winners were chosen for the finals at Indianapolis.

Bay Area teams from Homestead High School, Sunnyvale, and Hayward Vocational School, Hayward, both placed high in the standings in the industrial arts classification and the vocational education classification, respectively.

Participating teams at the finals shared in college scholarships, prizes, trophies, and training aids for their schools worth \$100,000.

Trouble Shooters compete to see who can most rapidly and accurately restore a car to perfect running order after a series of identical malfunctions have been deliberately placed in the engines.

Participating schools, Plymouth dealers and the Chrysler-Lions Club of Palo Alto to benefit their various charities and the Mercedes-Benz Gull Wing Club. Last, but not least, is the Golden West Rally, a time and

New Leader At Hospital On August 1

Sister Teresa

Mary's Help Hospital, Daly City, will have a new administrator August 1. Sister Teresa will come from El Paso, Texas where she has served for the past fifteen years.

Sister Teresa brings to the Bay Area a rich and diversified background in both nursing and hospital administration, and is a graduate of Saint Joseph's School of Nursing and De Paul University of Chicago, and a fellow of the American College of Hospital Administrators. In addition to the leadership Sister Teresa furnished at Hotel Dieu Hospital during a period of expansion in both beds and services, she also was the driving force in a campaign for a new \$2.6 million educational complex for the School of Nursing which was dedicated last December.

Her interests and contributions were not limited to the hospital. She served as president of El Paso-Southern New

Mexico Area Hospital Council, a member of the Diocesan Ecumenical Commission, on the board of the Visiting Nurses Association of El Paso and on the nominating committee for El Paso Health Council. Sister Teresa was the only woman appointed to the 40-member Medical Care Advisory Committee of the State Department of Public Welfare and has served on several councils of the Texas Hospital Association.

LE PACINI

IF FRANK "TOTO" SPADARELLA hadn't become the best pizza maker in the United States, he almost surely would have been one of the world's greatest promoters and public relations directors.

By now everybody knows of the expression, "Sock It to Me," created by comedians Dan Rowan and Dick Martin on their "Laugh-In" television show. In past weeks professional soccer has gotten all kinds of promotional mileage on a play of that expression, "Soccer to Me!" Spadarella, in his capacity as a Lions Club PR man, is the guy who originated the "Soccer to Me" take-off.

Now "Soccer to Me" is the official rallying cry for this Sunday's Lions Soccer Day at the Oakland Coliseum, in which the Clippers and the Los Angeles Wolves will clash for the benefit of the Bay Area Lions Clubs and their sight conservation program.

It'll be a regular North American Soccer League game. The Clippers are allowing the Lions Club to promote and sell regular reserved seats at the normal price of \$3.50 to the general public, most of that amount to go into the sight conservation fund. (Junior tickets are also available at \$1.75—ages 16 and under.)

IT SHOULD BE AN afternoon of good entertainment for a worthy cause. Last year the Lions Eye Foundation served 3,658 eye clinic patients, 168 orthopedic patients, 187 pathology specimens were processed, 51 donor eyes were received, and over 380 pairs of eyes were willed to the Lions Eye Bank.

Tickets for the August 4 match may be purchased from the local Lions Club of your community, or at the following locations: Lions Eye Foundation, 2018 Webster Street, San Francisco;

Now, It's 'SOCCER to Me'

Lions Soccer Day Committee, 79 Soledad Drive, Monterey; Lions Soccer Day Committee, 163 Roan Drive, Danville.

WE HATE TO BEAT A DEAD HORSE, but as we said two years ago, when the National League race was so close and everybody said it was because all the teams were so good, it could be close because they're all weak. We think this was borne out last year, when one team—St. Louis—suddenly put together a couple of successful trades, several great individual years, a comparatively injury-free season, and the usual amount of luck any team needs to win a pennant, and ran away with the thing.

With just about the same ingredients, they're doing it again this year. That's all it took to show just how relatively weak the other teams were—one team suddenly being able to put it all together at once.

Expansion, of course, is the reason. When four more teams are added next year, that means that 50 per cent more "major leaguers" are going to be required than were needed less than a decade ago. And even then there were always at least three or four hangers-on on each team who were no better than glorified AAA players.

Baseball men now claim—not for public consumption but in private conversation—that because of expansion and the force-feeding of youngsters, many players who wouldn't have been any more than solid "A" league players a decade ago will now be potential five year men in the majors. (If you're a teen-ager who likes baseball, incidentally, and have any talent and determination, here's your chance to grab onto a nice little old age pension.)

IT WON'T BE ONLY the quality of playing which will be watered-down. Fifty per cent more players also means 50 per cent more umpires, and a really good big league umpire has always been more scarce than a good big league player. So game play and efficiency of operation both promise to be weaker.

What this could all lead to is the eventual demise of baseball as a major factor on the American sporting scene. Very simply, fans will be cheated because they won't be seeing true "major

league" baseball, owners won't make money because they won't be able to fool fans for too long, and baseball may end up with fewer major league teams than it started with 65 years ago.

You can blame it all on greed. Greedy owners and greedy "fans," or at least status seekers who call themselves fans.

There's only one hope for the whole affair. Perhaps, with the watered down quality of players, managers, coaches, umpires, owners, even broadcasters, the next baseball generation will also produce watered-down fans, who won't know the difference.

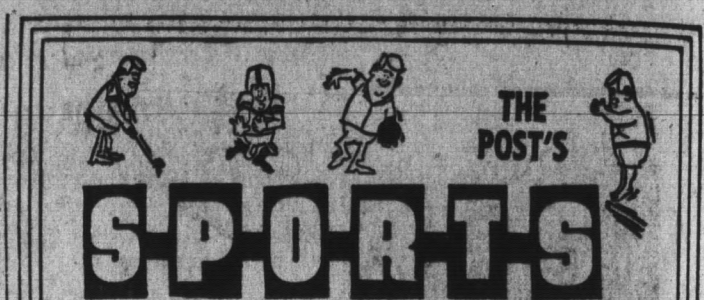

If any of you Cardinal fans took to heart our statement about the Cardinals being lucky, incidentally, we didn't mean it in a demeaning way. All teams which win as often as the Cardinals do must have a maximum of good luck and a minimum of bad luck.

For instance, in that fatal three game series with the Giants. Example: In the first game, the Giants are leading 3-0 in late innings, an error on a routine throw by Jimmy Davenport opens the gates for a rally which leads to a win for the Cards and demoralizes the Giants so badly that they're not even in the next two losing games. A Giant win in that first game might have turned the series—even the season—around.

Example: In a subsequent game, Tim McCarver wins it with a home run which not only barely makes it over the right field wall, but needs a lot of help from the wind. Example: In the same game, Willie Mays pulverizes a ball, but hit into the teeth of a gale in left field, it became a routine out.

IF YOU FOLLOWED Cardinal box scores all season, you could almost make up a book of similar incidents. But give the Cards credit for knowing how to play their luck, how to take advantage of the enemy's misfortunes.

Conversely, talented teams like the Giants which lose as often as they do, continually fall into bad luck, not all of it mere injuries. We've mentioned a couple of examples in that Cardi-

nal series. In a recent Cubs series, Willie McCovey twice drove outfielders during one game, to the warning path in right center with viciously hit balls. They were outs.

In both cases, the flag on the pole in center field was dead. Yet in each case, the wind was blowing strongly to right just before and just after McCovey came to bat. The Giants lost that game.

Two games later, Ron Santo hit an ordinary fly ball to right field in the eighth inning of a scoreless tie involving, naturally, Gaylord Perry. The wind was blowing. The ball was hit high and just kept soaring with the wind. Two run homer, Giants lose. What were Giant hitters doing during those last two innings when the wind was so strong? Hitting to left field.

So maybe they should have tried to hit to right—maybe they did. The point is, if they were going to win, they would have had to hit to right field. It's just one of those years. Ask Herman Franks.

FRANKS, WE THINK, might have made it in San Francisco if only somebody would have publicized the fact that he's Italian, not German. Either that or he should have changed his name to something like Bacigalupi.

And finally, another little statistic to support our long-held contention that pitching isn't 90 per cent—or close to it—of baseball. According to the latest major league statistics, the Dodger pitching staff has the lowest staff earned run average in baseball (3.44). And the Dodgers, as we all know, are in ninth place.

Pacifica's Bass Derby

Jaycees On Coast Direct Fifth Event

The fifth annual Pacifica Striped Bass Derby opens tomorrow, and Jaycee project chairman Richard McLain reminds fishermen that registration tickets may be purchased for \$1 at the Pacifica Sports Center, official headquarters and weigh-in station in the Sharp Park district of Pacifica.

Registration in the Jaycee-sponsored project makes participants eligible for prizes based on the largest striped bass caught. Winners will be determined by the weight of the fish.

Daily prizes such as lures, line, hooks and other items of fishing tackle will be awarded for the largest bass caught each day.

First, second and third place prizes will be presented each of the four weeks of the derby; such as, the four-side cast Alvey rods and the four custom made surf rods by Richard Gordon.

A special scoreboard at the Pacifica Sports Center will keep contestants posted as to how the Jaycee derby is progressing.

Along with the daily and weekly prizes, trophies will be presented to the first, second and third place over-all derby winners. The first place winner will also have his name and the weight of his prize catch engraved on the Jaycee Bass Derby Perpetual trophy.

According to McLain, who has been the Bass Derby chairman twice before, striped bass fishing in the Pacifica area is renowned by avid sports fishermen throughout the western part of the United States.

The striped bass fishing is a natural asset to the community. The Pacifica Jaycees promote the Bass Derby each year as one of their many community development projects and to bring further recognition to the city of Pacifica.

COAST UNIT

Boy's Football Signups Set

The Pacifica Dolphins, Pop Warner chartered football team will begin its second year under the guidance of the Pacifica Youth Association.

The PYA was established as a separate organization by the Pacifica Jaycees under their Youth and Sports Program, according to PYA president, John Drew.

The Pacifica Dolphins will play their second year in the mid-Peninsula league. Last year, they took third place with five wins out of the seven games played in the San Francisco Police Athletic Association League.

Coach Tony Racanelli, the father of three children and a longtime football enthusiast, said the season's first game will be September 8, against the Menlo Park Pop Warner Club at Terra Nova field in Pacifica.

To be eligible for the Pacifica Dolphins team this year, boys must be residents of Pacifica, in

the ten to thirteen age group, but not yet in high school. Youngsters must have their fourteenth birthday prior to the end of the Pop Warner season in late November.

The last day for sign-up will be August 3, between 10 a.m. and noon at Oceana and Terra Nova high schools. All that is required is a \$2 registration fee and written consent of the parents or guardian.

Racanelli and eight other Dolphin coaches, will begin the two-week daily pre-conditioning practice August 5 at Terra Nova.

The Dolphin Club is scheduled to play a total of ten games, one each Sunday afternoon.

The start of the 1968 season marks the beginning of forty years of the National Pop Warner Junior Football Conference.

Safety is assured by strict enforcement of all "safety first" standards and requirements along with evenly matched teams by age and weight.

For sign-up information, contact head coach of the Pacifica Dolphins, Tony Racanelli, or Pacifica Youth Association president John Drew.

DANIEL WEBSTER

BY DAN DESMOND

The youngsters at Daniel Webster School took advantage of the recent good weather. Two water-balloon fights have been held at the playground. The first battle was a free-for-all.

The only real loser, was the recreation leader who got drenched. Teams were chosen for the second encounter.

Among those who really got drenched were Steve Weston, Kathy Agnone, Larry Gardman, Bruce Kahuna, Reggie Bowie, Tom Mazzucco, Laurie Rico, Paula Mazzucco, and Henry Despuols.

Bill Foden with his clever dodging was the only person to remain completely dry throughout the battle.

A hot dog barbecue is being planned and sign-ups are now being taken for a table tennis tournament at Daniel Webster. The playground is open for recreation from 10:4 a.m. on Mondays and 10:5 a.m. Tuesdays through Fridays.

The recreation program at Colma con-

tinues with a number of interesting and diverse activities.

The Three-Man Softball tourney is in full swing with the "Latin Lovers" remaining undefeated.

Members of this team are Ed Dominguez, Chino Fonseca and Andy Page. A number of youngsters are becoming very proficient in archery skills.

Elia Harper, Earl Harper and Joey Alonzo are all accurate and consistent shooters. These shooting skills are taught on Tuesdays and Wednesdays.

In the evening recreation program, the Coed Volleyball League is going strong with a team consisting of Linda Wendt, Ted Wendt, Joan Moura and Elia Harper being the best entries thus far.

WESTLAKE SCHOOL

BY LYDIA MERLO

Taking advantage of the unexpected good weather, the children at Westlake School staged a rousing water balloon fight. In order to cool off each person armed himself with water balloons and buckets and tried to soak the next person.

About 25 boys and girls joined the fray but the director ended up soggy than them all. A pie-eating contest was held on Friday, July 19, at the school. Fourteen people gulped down pieces of apple or cherry pie heaped with whipped cream and three winners emerged from the "eat-in." They were: Armando Garcia, age 7; Steve Dornstein, age 9; and Mark Donovan, age 11.

Warriors' Clinic Set

A free San Francisco Warriors' basketball clinic, sponsored by the City of San Bruno Recreation Department, will be held at the San Bruno War Memorial Recreation Center Gymnasium, Friday, August 2, starting at 1:00 p.m.

Warriors' coach, George Lee, will lead members of the team through demonstrations and instructions during the first half of the clinic. The remaining time will be devoted to individual participation in a series of contests.

Tickets will be given to the youngsters and Warriors basketballs and "The City" T shirts will be awarded as prizes for the contests. Youngsters of all ages are urged to attend and meet and talk with the professional basketball players.

Playground Activity In Daly City

(Continued From Page 23)

WESTMOOR PARK

BOB HANSEN

Westmoor Park is offering a wide variety of recreational activities for which points are awarded to a number of participants who compete each week. Highpointers in last week's activities were: John Murray with 47; Don Tomcik with 35; Rick Martin with 34; Elaine Abrams with 33; and Brent Hamilton with 32. Following close behind were: Tom Jacobson, Mike Paulsen, Mark Orfano and Steve Murray. Competition will start again soon with points being awarded to winners of carroms, paddle pool and ping pong. Interested youngsters are invited to participate each Monday, Tuesday and Wednesday from 2-4 p.m.

MIDWAY SCHOOL

BY STEVE WILSON

A fun-filled week of recreation activities at Midway School began Wednesday afternoon when John McMillan took home all the candy — 3 Nestles Crunch Bars — when he won the jackpot game in the weekly bingo game. John blacked out his card in 34 numbers. Immediately following was the high school dance which drew a modest crowd. Some of the top scorers were Jimmy and Natasha Ramsey and Fred Mackey. Sabrina McMurry took top honors as the ball danced heavily to top honors. Friday's Hawaiian Day Contest, Little Jackie Ache took second place and a determined Ricky Turnbull, pineapple and coconut were served to all participants.

VISTA MAR

BY JON LARSEN

The recreation leader was chief cook at the Vista Mar barbecue which featured hot dogs and marshmallows. Following the cook-out, participants enjoyed relays and various games. Carroms, paddle pool, chess and checkers have netted some child experts in Robin Horner, Jim Joyce, Darlene Dardi, Jill Gibson, Jeff Bando, Keith Harband, and Brian Schroll. Vista Mar's Baseball team has added two more victories. Five hitting by Dave Montgomery, Mike Urrilla and Frank Isla brought winning runs across the plate while superb fielding by Bob Fidler, Tony Larooca and George Linsey made it difficult for the opponents to score.

Summer Youth Program Is Success

EDWARD S. DONNELL

Ward Plans Expansion On Peninsula

Edward S. Donnell, president of Montgomery Ward, yesterday announced expansion plans for the opening of at least seven new full-line retail stores in the San Francisco Peninsula during the next five years.

He described the national merchandising firm's 195,000-square-foot Daly City store, which opens on Wednesday, as "a new Montgomery Ward thrust in a multimillion-dollar expansion that calls for new stores in San Mateo, San Francisco, and Santa Clara Counties."

Frederick H. Veach, Ward's regional vice president, said the new expansion will more than double the number of the company's Bay Area stores with 13.

Wards, which opened its Oakland catalog house in 1924, as part of its nationwide expansion and modernization program, has opened five new retail stores, a 595,000-square-foot distribution center, and a 40,000-square foot paint factory in the Oakland-East Bay Area since 1959.

South San Francisco's new "Summer Youth Program" has attracted a surplus of both students and adult volunteers, Human Resources Commissioner Antonio Montoya reported, and there now appears to be an excellent chance the program will continue beyond the scheduled six weeks.

Financed with a \$4,200 grant from the County Human Resources Commission, the initial six-week program was intended to serve about 40 youths from Mexican-American families and other minority groups.

Now at the midway point in the summer schedule, the pro-

gram has attracted 68 youngsters and a more than ample number of teen-age and adult volunteer tutors, Montoya said.

The children, in two different age groups ranging from pre-school to junior high students, are learning English, mathematics, history and other basic subjects taught in the public schools.

Montoya said the decision to expand the Summer Youth enrollment beyond the original 40 students was made "after we learned the city will apparently receive \$20,000 Head Start grant for pre-school children."

The Head Start program will begin in October, the commis-

sioner said, but will serve only those children under the age of six.

"We intend to continue the present program on an 'after-school' basis for the older children as a supplement to the Head Start program," he said.

Montoya said present plans also call for continuation of full-time activities at the Information and Referral Center operated this summer in conjunction with the youth program.

The center operated on a part-time basis prior to inauguration of the summer program, and serves to refer job seekers to potential employers and dispense information on educational opportunities.

In addition to the unexpectedly large number of participants and volunteer workers, the Youth Program has received generous donations of school and office equipment from South San Francisco businessmen, Montoya said.

Sylvester Gomez, 18, is serving as educational coordinator for the youth program, and 17-year-old Martha Lepee is director.

Mexican-American businessmen and civic leaders will approach parents of the children involved in the youth program to discuss continuing the project beyond the six-week deadline during the next few weeks, Montoya said.

Windows Smashed At D.C. Schools

Two Daly City juveniles were taken to Hillcrest Juvenile Home Sunday by Daly City police after they were apprehended at the Woodrow Wilson School at 43 Miriam Street where \$1,500 in vandalism was reported.

Daly City police reports indicated the Jefferson Elementary District School had been entered prior to 5:30 p.m. and desks and supplies strewn about a classroom and two large windows broken.

Just two minutes later vandalism at Vista Grande School was reported. Four of five windows had been broken there, police said.

Saturday, officials of the Garnet Robertson School in the Bayshore Elementary School District reported to Daly City police the smashing of 18 8x12-inch windows between July 23 and July 27.

'Wild West' Holdup On Bruno Mt.

A San Francisco cabinetmaker told sheriff's deputies he was robbed on San Bruno Mountain Saturday in a holdup reminiscent of the stage coach robberies of the Old West.

Vito Cipola, 39, who speaks little English, told Deputy Tom Graham through an interpreter that he was driving on Guadalupe Canyon Road about a half-mile west of Radio Road when two dirty old-model cars driven by men came up. One pulled ahead of him and forced him to stop while the other came up close behind.

The drivers got out, Cipola said, and walked toward his car. He was frightened, he said, and locked the doors of the auto. They banged on the window, however, and demanded that he open the door.

Cipola said he opened the window about two inches and passed his wallet out. They took the wallet, containing \$8, got back in their cars and drove off.

DC Delegates To 'Witness' Convention

Raymond Moody, Sr., associate presiding minister with the Daly City congregation of Jehovah's Witnesses, advocates family worship as a deterrent against juvenile delinquency.

Moody and his wife, Marie, Ray, Jr. and James, will serve as delegates to a four-day district convention of Jehovah's Witnesses in Santa Rosa, August 8-11.

At such assemblies all members of the family serve as delegates. There is no special selection of representatives and each member of the congregation is encouraged to attend. It is reported that a large group from the local community will be there.

Moody is a minister who is concerned about the breakdown in family life and the tragic results it has on the children. He stresses family worship as the strongest instrument to hold the family together and combat the indifference among juveniles toward God and their responsibilities to their fellow man.

"This matter of worshiping together," Moody said, "high-

San Bruno Found Dead

A San Bruno warehouseman was found hanging from a rafter in the garage of his home Wednesday, an apparent suicide, the coroner's office reports.

Joseph John Mahoney, 46, of 2640 Oakmont Drive, apparently had been dead for several days when police found him, it was reported.

There was no note found. The coroner's office said Mahoney apparently stood on a chair, placed the rope around his neck and the rafter, then stepped off the chair. Police went to the home after neighbors reported they hadn't seen Mahoney in the past few days. He is survived by his estranged wife, Gordonette, who lives in Daly City.

lights the need for parents to spend time with their families. In our affluent society today, all too often, you see parents trying to substitute money or material things for time in their relationships with their children.

For children to mature properly they need the companionship of their parents and particularly in matters of worship."

S.S.F. Summer Schools Open House Aug. 6

South San Francisco Elementary Summer Schools will host an Open House for parents of students and patrons of the schools on Tuesday, August 6, from 10 a.m. to noon, according to principal E. D. Pitcock.

"Visitors will have an opportunity to view the summer learning environment as well as noting products of summer learning," Pitcock said.

"Summer school is an opportunity in the South San Francisco Unified School District for students to enjoy a different type of instruction from that offered during the regular school year. They may strengthen weaknesses, investigate new educational area, and broaden the regular school experiences, Pitcock said. Field trips and generous use of audio-visual facilities are a normal part of the summer learning process in most classes and teachers are provided an opportunity to experiment in their teaching methods," further stated the principal.

The schools in which the summer school programs are held include Hillside with William A. Malet, building principal; Ponderosa, Miss Barbara A. Healey, building principal; Foxridge, Edwin L. Howard, building principal, and Buri Buri, E. D. Pitcock, principal.

Elementary students in grades 2, 3, and 4 are in self-contained classrooms where they receive instruction in reading, mathematics, language arts, arts and crafts, and related subjects. Upper grade students have an opportunity to change teachers each of the four daily periods. They may study reading, mathematics, arts/crafts, creative writing, science, music, and dramatics. In addition to the regular elementary program, there are special classes for hearing, speech, mentally retarded, and educational handicapped.

Have Tools Handy for Satisfying Work

But you can help a student get into the mood by setting the stage for study. One of the best encouragements is a permanent study area with a quiet atmosphere, good lighting and the proper equipment for work. If possible, the privacy of his own personal work place can make the study area itself a desirable retreat, one where he can learn to look forward to a ritual quiet time in his day. Eyesight is important to the learning process, both physical and psychologically. About 80 per cent of our knowledge is gained through our eyes, reports the Consumer Research Department of the Murine Company. But the condition in which our eyes receive knowledge also subtly influences our reaction to the information. For example, a student studying often and long in poor lighting slumps close to the page to see better, incurring both eye strain and muscle fatigue. It's easy to imagine why a student studying regularly under these conditions won't like that subject.

TRAINING — From switchboard to modern office machinery, Peninsula Training School has become a leader in preparation for today's business technology. Skilled teachers aid students, above, in

learning standard and advanced techniques to fit them for the fast-growing Peninsula office opportunities.

Offer Health Career at Area College

The College of Health Careers located at 2730 Broadway is a unique school dedicated to the training of ancillary medical personnel. Mrs. Frances Brennan, R.N., is the owner director.

Instruction is given in Practical Nursing, Hospital Orderlies, Medical Transcribing and Medical Clerical Courses. The Medical Clerical courses qualifies graduates to work as Medical-Dental Receptionist, Hospital Ward Clerks, and Hospital Admitting Clerks.

Mrs. Brennan is a registered Nurse and received her training at Children's Hospital in San Francisco. She served there as an assistant instructor in nursing and also private practice in physicians' offices. She is on the staff of El Camino Hospital in Mt. View, and also served at Sequoia in R.C. for ten years.

She was originally an instructor at College and after one year took over as assistant director. In September of 1967 she bought the school and is now the co-owner of the college.

The college gets many referrals from the State Department of Vocational Training. It also works closely with the Bureau of Indian Affairs and has Indian students from all the western states.

Mrs. Brennan thinks the name —College of Health Careers— expresses the nature of the study course provided at the school.

Mrs. Brennan is the widow of the late John A. Brennan who worked at Stanford for many years and was active in development of the linear accelerator there.

Peninsula Training Has Rapid Growth

In a matter of less than three years, Peninsula Training has become a leader in modern business technology.

P. T. S. lays heavy stress on highly experienced teachers. Roxine Kolbuck and Norma Simmons, IBM keypunch teachers can claim more than 25 years in data processing, much of that time spent in supervisory positions. Patricia Knoch, PBX-receptionist instructor has worked for over 15 years in the field. And thus it goes, with every instructor hired or working at the "biggest little school" on the Peninsula.

Again, modern courses, short, fast, thorough, and inexpensive, are tailored to the "today-minded" student.

Individual attention is maintained by utilizing the "limited enrollment" procedure used by

many private educational institutions.

Aptitude testing utilizing IBM's own testing methods are a part of the "pre-enrollment process" for computer programming, IBM keypunch, and creative salesmanship classes.

A comprehensive scholarship program is in effect for senior high school students wishing accelerated training and rapid job placement.

Peninsula Training is currently considering the training of court reporters, using the modern machine shorthand method that permits its multiple-voice "taking" speeds up into the 300 w.p.m. brackets.

This course is tentatively set for a September, 1968, starting date; inquiries are being accepted on this course now in order to better ascertain what interest exists in this field.

PROPER EQUIPMENT FOR WORK, a quiet atmosphere, and good lighting are the best incentives to learning. Researchers for an eye-lotion company say that minimum light is that from a 75-watt bulb at a distance of 6 feet.

Driver's School Is Successful

The Easy Method Driving School, organized by T. J. Henning in 1963, has helped thousands to enjoy driving successfully in modern traffic.

Special programs have been arranged for teen-agers, in classroom and behind-the-wheel training.

The widely experienced staff of instructors has been very successful in aiding older drivers,

the foreign born, the physically handicapped and the extremely nervous — as well as those who have failed to learn elsewhere.

Henning, who has a long record of driving and teaching, smiles at those who boast they taught themselves in two or three hours.

He recalls that twenty years ago, there were 80 million fewer

drivers on the highways, that the pace of traffic was slower, and that there was open country in which to develop the art of steering.

Such conditions no longer exist, and the result is a tremendous demand for high quality instruction by professionals. In ten years or less, the professional must develop all the coordination of eye, mind, hands and feet that it has taken the experienced driver ten years to learn.

This requires special techniques of teaching. Henning is dedicated toward developing skills of the beginner more rapidly and completely. Easy Method Driver School, proven in practice, enjoys putting students immediately at ease.

It has found that the relaxed student learns more rapidly and completely. Easy Method Driving School, proven in practice, enjoys putting students immediately at ease.

It has found that the relaxed student learns more quickly, and that there is always a big smile on the student's face when he realizes he has learned not only well, but rapidly.

The school, which has main offices at 428 West San Bruno Avenue, San Bruno, has several instructor areas.

The include (1) Redwood City-San Mateo-Burlingame; (2) Millbrae-San Bruno-South San Francisco; (3) Pacifica-Daly City-San Francisco.

Schedules are available for prospective students Monday through Saturday, 7:45 a.m. to 8 p.m. They may be arranged by phone.

Enthusiasm Is Priceless

A priceless quality in any endeavor is enthusiasm. Certainly in teaching this quality is most prized.

A prerequisite, of course, is being thoroughly versed in the subject which you want to teach ... when you are so versed then you can "forget" the hard-core facts and let your natural enthusiasm carry you forward in your goals.

Refuse to consider it as a "chore" or a duty that has been forced upon you. It is a happy privilege — a golden opportunity. So refuse to complain or to apologize for being a teacher. Be glad and proud of this privilege you have.

Prepare the lesson thoroughly so you know you have a grip on it. Then you will find it has a grip on you, such that will be the most important thing for your class during the lesson period.

Saucepan Helps

One of the handiest items you can slip into the suitcase of your campus-bound youngster is a saucepan. Not just any utensil, but an all-purpose one that can withstand the special demands of a busy student's "at-home" life away from home.

It should be of an even-heating material, such as aluminum, to produce an almost instant supply of boiling water for those endless cups of coffee, tea or cocoa to accompany late study hours, or to host visiting co-eds. It should quickly and evenly heat canned or packaged soups, stew or other convenience foods to nourish a chilled, hungry student after a football game or brisk hike.
